

Non-OHIP-Covered Fees and Block Billing Information for 2011/2012

As you may know, The Ontario Health Insurance Plan (OHIP) does not pay for all services that you request from your doctor. Services that OHIP does not pay for are called “non-insured” or “uninsured services”. In order to provide effective and efficient care it is necessary to charge for these services. There are three options available to you for payment of these non-OHIP insured services:

- A. Pay individually for each service that you actually use. See fees below.
- B. Basic Coverage - Pay \$100.00/year per child (maximum \$250.00 per year per family) – See table for coverage details
- C. Premium Coverage – Pay \$150.00/year per child (maximum \$350.00 per year per family) – See table for coverage details.

The fees contained in the list below are based on the Ontario Medical Association’s recommended fees as found in the 2011 edition of the OMA’s *Guide to Third Party and Other Uninsured Services*.

In the event of financial hardship, please discuss this with your doctor. It is not our intention to cause any undue financial burden on patients and their families.

All uninsured services must be paid in full when rendered. If requested, we will provide you with a receipt upon settlement of your account. Please note that the office accepts cash, cheques, or credit cards. Where applicable, a charge of \$20.00 for personal cheques that are returned N.S.F. by financial institutions will be added to patients’ accounts.

Thank you very much.
